

Make It

with

Microsoft® PowerPoint®

Windows & Macintosh

**By
Vicki Sharp,
Ph.D.**

You'll learn the components of PowerPoint
- for use with PowerPoint 2003 and
PowerPoint:mac 2004.

Make It with PowerPoint

Windows & Macintosh 2003/2004

Dr. Vicki F. Sharp
Professor Emeritus

About the Author

Dr. Vicki F. Sharp, Professor Emeritus at California State University, Northridge, is the author of over thirty-four books and numerous articles on topics related to the use of computers in education. A few of her books are: *Computer Education for Teachers, Fifth Edition* (McGraw-Hill, 2004); *Make It with Office X, 2001*, *Make It with Office XP, 2003* (Visions Technology in Education 2004), *Make It with Inspiration 7.5* (Visions Technology in Education, 2003), *The Best Web Sites for Teachers, Fifth Edition* (International Society for Technology in Education, 2002), *PowerPoint In One Hour—Macintosh and Windows Versions* (International Society for Technology in Education, 1999); *HyperStudio 3.2 in One Hour*, Windows and Macintosh Versions (International Society for Technology in Education, 1999); *WebDoctor—Your Online Guide to Health Care and Wellness* (St Martin's Griffin, 1998); *The Best Math and Science Web Sites for Teachers* (International Society for Technology in Education, 1997); *Netscape Navigator 3.0 In One Hour* (International Society for Technology in Education, 1997).

She frequently writes about children's software for magazines, and serves as a computer consultant and trainer for software publishers and school districts in Southern California.
